

Dear Colleagues:

First 5 California (F5CA) is pleased to announce release of a \$12 million RFP (contract term through June 2020). The successful bidder will provide statewide training and technical assistance (T&TA) infrastructure development to promote evidence-based practices across California, and within consortia implementing continuous quality improvement, including rating and monitoring activities as part of the California Quality Rating and Improvement System (CA-QRIS). The successful bidder will partner and work with existing experts and build upon national, federal, state and local resources.

The RFP includes two primary focus areas for statewide implementation:

1. Workforce development supports for continuous quality improvement (CQI) through practice-based and culturally/linguistically relevant:
  - Coach training and certification
  - Communities of practice for early childhood leaders
  - Family engagement training, including train-the-trainer
  - Trainer and training approval processes
2. CA-QRIS materials to build common understanding and rating/assessment practices through:
  - Regional assessor management capacity building
  - Online, user-friendly access to the CA-QRIS Implementation Guide
  - Training modules to increase knowledge about the CA-QRIS

F5CA invites submissions for this statewide T&TA RFP. The Cal eProcure listing for RFP No. CFF 7410 may be found by searching by Business Unit or Event ID at: <https://caleprocure.ca.gov/pages/Events-BS3/event-search.aspx>. The submission deadline is 02/17/2017 10:00AM PST.
