Reflexive Practice in Real-Time: Deepening the Dialogue to Strengthen Relationships

Joshua Sparrow, MD
Director, Brazelton Touchpoints Center, Division of Developmental Medicine, Boston Children's Hospital, Harvard Medical School

Chris Sciarrino, MS
Director of Professional Development Innovation, Early Learning Lab

Renee White, BA
Pre-Kindergarten Teacher, Ewing Elementary School, Fresno Unified School District

Elita Amini Virmani, PhD
Co-Director, Parent Involvement Project & Director PITC Home Visiting Institutes, Center for Child and Family Studies, WestEd

Sheryl Chan, MA
Coordinator of Child Development Programs, Moreland School District, Former Child Development Director, South San Francisco Unified School District & Parent Involvement Project Supervisor
Introductions

• What brings you joy in working with families and/or staff?
• Think about a positive experience you have had partnering with a family or families.
Family Involvement and Family Engagement
What is Family Engagement?

Family Engagement is:

• Building relationships with families that support family well-being, strong parent-child relationships and ongoing learning and development of parents and children.

• A set of beliefs, attitudes, behaviors and activities of families that support their children’s positive development from early childhood through young adulthood.

• Happening in the home, early childhood program, school and community

• A shared responsibility with all those who support children’s learning.

brazeltontouchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
Parent, Family, & Community Engagement is:

Systemic, Integrated, & Comprehensive

brazeltontouchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
What is Systemic PFCE?

PFCE beliefs & activities are carried out throughout the entire organization.

brazeltontouchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
What is *Integrated* PFCE?

PFCE attitudes & activities are connected to each other throughout programs in a way that support a *holistic* vision of engagement.

brazeltontouchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
What is *Comprehensive PFCE*?

The *full range* of strengths, interests, and needs of the adults and children are considered and staff support families by connecting them with services and resources to achieve their goals.

[brazeltontouchpoints.org](http://brazeltontouchpoints.org) & [https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family](https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family)
Achieving excellence for children & families requires full engagement by all:

- Parents
- Family Service Workers
- Teachers/Home Visitors
- Bus Drivers, Cooks, Janitors
- Managers
- Program Directors
- Governing Boards
- Community Partners

brazeltontouchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
When grounded in foundations and impact areas, PFCE will support family outcomes

1. Family Well-Being
2. Parent-Child Relationships
3. Families as Lifelong Educators
4. Families as Learners
5. Family Engagement in Transitions
6. Family Connections with Community
7. Families as Advocates and Leaders

brazelton touchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
And in turn, this will support child outcomes:

1. Children ready for school

2. Children sustain development and learning gains through third grade
PARENT, FAMILY, AND COMMUNITY ENGAGEMENT FRAMEWORK

When parent and family engagement activities are systemic and integrated across program foundations and program impact areas, family engagement outcomes are achieved, resulting in children who are healthy and ready for school. Parent and family engagement activities are grounded in positive, ongoing, and goal-oriented relationships with families.

brazelton touchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
When we actively engage families...

...All Benefit.

• **Children** will be healthier and more ready for kindergarten

• **Families** will be more engaged in your program & in the public school

• **Programs** will achieve higher levels of quality

• **Communities** will provide stronger supports to the next generation

brazeltontouchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
Contrasts

Family involvement

• Behaviors we can see and count

• Behaviors that may occur as a result of a range of different motivations, including complying with requirements

• Behaviors that may occur when material barriers (transportation, childcare, scheduling) are removed

Family engagement

• Behaviors that result from attitudes and feelings that we may not be able to see or count

• Attitudes and feelings exchanged in Interactions between families and staff, and between families and children that lead to involvement outputs as well as family and child outcomes

brazeltontouchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
Differences

Family involvement
• Parents show up
• Parents bring their bodies
• Staff identify and help remove material barriers

Family engagement
• Parents (and staff) actively participate
• Parents (and staff) bring and offer their hearts and minds
• Parents participate in identifying and removing material barriers

brazeltontouchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
Family Involvement and Family Engagement

You can have family involvement without family engagement, but you can’t have family engagement without family involvement.

Parents can show up without actively participating, but they can’t actively participate until they show up.

Other people can make a parent show up, but parents’ active participation is within their power alone. It is an experience of taking control of their own lives and of their children’s futures.
Family Involvement and Family Engagement

Family Involvement
• a necessary first step to engagement: you have to show up in order to have the interactions of engagement

Family Engagement
• can lead to more involvement (that is more showing up)
• with engagement, the quality of involvement changes, and brings the potential for change, for new behaviors beyond just showing up

brazeltontouchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
One way and two way interactions

Family involvement
- A one way behavior: parents come to the center
- Or parents let the home visitor in

Family engagement
- A two way interaction: parents and staff come toward each other
- Parents and staff are both changed, both change each other through this interaction

brazeltontouchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
Engagement is a relational process

- engagement is relational
- the experience of engagement includes specific qualities of the relationship – safety, trust, encouragement, mutual respect and caring and hope
- the experience of engagement leads to changes in attitude, motivation, and sense of positive possibility
- the experience of engagement leads to changes that promote PFCE family and child outcomes

brazeltontouchpoints.org & https://eclkc.ohs.acf.hhs.gov/hslc/tta-system/family
Barriers to involvement and engagement are different

Examples of barriers to involvement

• Transportation
• Child care
• Work obligations
• Scheduling conflicts
• Bad weather

Examples of barriers to engagement

• Fear
• Suspicion
• Distrust
• Feelings of being unwelcome, disrespected, or at risk of being overpowered
• Power imbalance
• Misunderstandings
• Beliefs about parent and teacher roles

Reflective Practice to Support Family Engagement

WestEd, Center for Child and Family Studies & South San Francisco Unified School District

Elita Amini Virmani
Sheryl Chan
Ann-Marie Wiese
Peter Mangione
What is PIP?

The Parent Involvement Project (PIP) aims to facilitate high-quality early learning experiences for low-income families and their preschool-aged children through four essential integrated areas:
Reflective Practice Efforts

- Reflective practice training for PIP Staff
- Reflective Dialogue:
  - PIP Co-Directors with PIP Supervisors
  - PIP Supervisors with PIP staff
  - Among PIP staff
- Reflective Prompts with Children and Families
What is Reflective Practice?

Stepping back from your interactions and examining them

- Observing
- Listening
- Wondering
- Responding

Why Reflective Practice?

REFLECTIVE PRACTICE Enhances Reflective Capacities

SENSITIVE INTERACTIONS

- between parents and children
- between teachers/staff and children
- between teachers/staff and families
- between supervisors and teachers/staff
- between program directors and supervisors

FOUNDATION for learning & development
Reflective Practice Fosters Cultural and Linguistic Responsiveness

"By engaging in reflective practice, one builds reflective capacities that lead to linguistic and cultural responsiveness in meaningful ways among, staff, children, and families."

Key Skills for Engaging in Reflective Dialogue

- Pay attention to non-verbal messages:
  - Eye contact
  - Physical distance
  - Tone of voice

- Use open-ended questions & statements:
  - Tell me more about why you think that did/didn’t work…
  - You mentioned _____, can you say more about that?
  - I am wondering…

Adapted From Diane Harkins Presentation: Home Visiting: Principles in Practice
Real-Time Reflection

Elita    Sheryl

🔹 What do you notice?
🔹 What do you find yourself wondering about?
🔹 How is this relevant to your work?
Connecting Reflective Conversation to Your Own Work

✧ Take a moment to think about how you might integrate reflective conversation into your own work
✧ Turn to a partner, share your ideas
Using The Family Language and Interests Interview
The Fresno Language Language Project

Deepening Relationships for Meaningful Engagement with Families
Welcome
• Supports development of new and improved professional development and early learning solutions
• Helps spread them
• Works to build early childhood innovation capacity
Fresno Language Project Partners

1. Fresno Unified School District
2. Children’s Services Network
3. Fresno Economic Opportunities Commission
4. Lighthouse for Children

Driving Innovation & Learning in Early Childhood
Aim of the Fresno Language Project

- Grade level academic achievement and English language proficiency for all children by fourth grade with continued development in home language.
Myth or Fact?

Based on Evidence and Approach developed by Dr. Linda Espinosa

- Personalized Oral Language Learning (POLL) Strategies

- Targeted Language Model for each classroom or home

- Family Engagement

- Family Language and Interests Interview
Real-Time Reflection
Renee      Chris

What strikes you most about this conversation? (Non-verbal, verbal, attitude, stance, etc.)

Are there points made that you want to apply to your own work with families? Others?
Small Group Discussion
