

Purpose and Relationship between F5CA Strategic Documents and Reports

F5CA Strategic Plan Purpose

The [Strategic Plan](#) provides First 5 California's Vision, Mission statement, and Values and Guiding Principles form the foundation for all its work

- Sets the **direction for F5CA** from 2019-2024
- Specifies key areas of focus and work, reflecting the three overarching Priority Areas derived from the Act: Child Health, Child Development, and Family Functioning
- Identifies Supportive Strategies for each Priority Area that represent the primary work and key activities that will be implemented by First 5 California during the plan's timeframe

F5CA Data Digest Purpose

- The primary purpose of the Data Digest is to report to the First 5 Commission about how well F5CA is doing in meeting the goals and priorities outlined by the Strategic Plan.
- The Digest is intended to:
 - Track progress on a set of specific metrics aligned with F5CA priorities and investments
 - Be dynamic and adaptable should the priorities and focus of the F5 Commission change (e.g., metrics can be added, additional types of data can be collected to address metrics, etc.)
 - Serve as an internal mechanism to examine how F5 is working to reach its "north star"
- It will also inform the work of the F5CA staff.

F5CA Annual Report Purpose

- First 5 county commissions are required to report to F5CA their annual expenditure and service data on their programs.
- Counties report program service data under the four result areas. These data have been aggregated to the State level.
- **Data reported are from programs funded by both county and state First 5 commission dollars.**
